## Published Projects

### **E-Learning Course Development**

Worked co-operatively with a nationwide team to develop and write the modules, content and assessments for a new Level 3 and Level 4 E-Learning course to be delivered across the nation.

### **Blobb, a mobile puzzle game**

Created in GameMaker: Studio, Blobb is a 2D puzzle game where players must navigate the mazes and traps to collect stars and unlock further levels. Designed and created solely by myself.

### **Number Miner, a mobile and web game**

Created in GameMaker: Studio, Number Miner is a puzzle game where players have to clear rocks by building simple equations. The game tests quick arithmetic and reflexes as rocks continue to fall. Designed and created solely by myself.

## Personal Skills

I pride myself on my ability to be a fast learner; picking up new skills very quickly and solving problems with efficiency. I am a strong leader and manager, managing staff and reporting on data; interpreting that data for periodical reports. I'm an approachable, intelligent individual that constantly strives to improve every facet of my professional career.
